

“YOUR SOURCE FOR ALL YOUR COMPOUNDING NEEDS”

Compounding pharmacies provide medications that are individually formulated to meet the a patient's specific health care needs. Until the advent of drug manufacturing in the 1950s, compounding was the way virtually all pharmacists practiced. Roxsan Pharmacy has over 40 years of compounding experience with a highly-qualified staff to answer all of your questions. Our goal is to make sure that you and your patients receive high-quality compounded medications at the most competitive prices.

Our pharmacists can assist you in customized medications to offer alternatives and advantages for dermatologist, plastic and cosmetic surgeons. By compounding your own formulation you can modify dosage form, create combination preparations, prescriber specific formulations, dosage modifications and so forth. Talk to the experts and they will be able to get you what you want for your specific patient needs. Call for samples today.
